CORRECTIONS: October issue

In the report on page 5 about the new WEE Directive, in the second paragraph the words following "Welcoming the adoption of the new" should have read Directive on Waste and Electronic Equipment (2012/18/EU) and not the Directive on the Control of Major Accident Hazards Involving Dangerous Substances.

In the report on the HSA's guidance on night work and shift work, on page 9 we wrote that night time is defined in the General Application (Protection of Pregnant Employees) Regulations 2007 as being between midnight and 6am. It should of course have read between 11pm and 6am.

My thanks to the reader who drew these errors to my attention and apologies to readers for any confusion caused.

Hebert Mulligan, *Editor*
